Setup

1. Unpack your JAVELIN card printer

Make sure the following items are included:

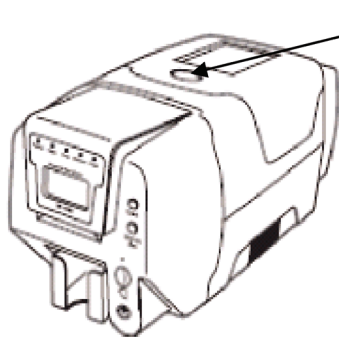

Power & USB cables – Power Adapter

Ribbon – Driver & Software CD – User Guide

Card Cleaning Kit – Quick Start Guide (*this document*) – Cleaning roller

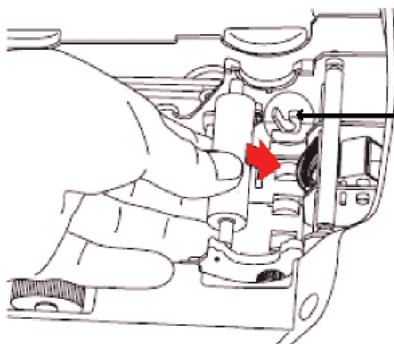

If any items are missing, please contact your dealer.

2. Opening the lid

Open the printer lid by pressing the Cover Open button on the top of the printer.

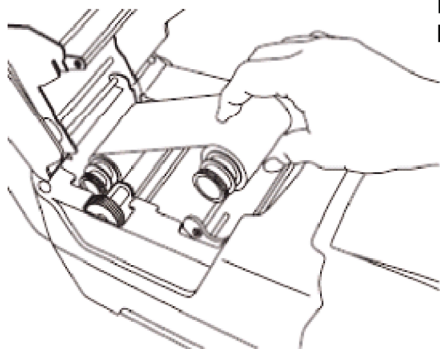

3. Cleaning roller

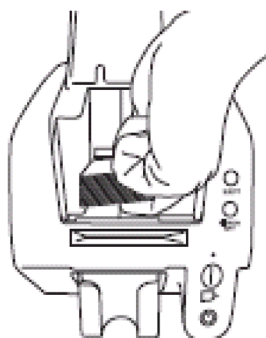

Insert the blue cleaning roller into the U-shaped slots near the front of the printer.

4. Loading ribbon

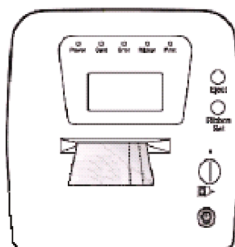

Remove the ribbon from its package and insert as shown. New supply to front, take-up at back. Gears to go to the left.

5. Loading cards into the J230i & front-feeding into the J200i

Insert cards as shown. Try only to touch the edges of the card when handling. Make sure cards are laying flat in the J230i hopper.

6. Printer installation

Load the Driver CD into the PC and install driver. Only switch on the printer and plug in the USB cable when instructed, and the install will then complete.

7. Test Print

To print a test card, first press "Ribbon Set" on the front of the printer. Once the ribbon is set, press the "Ribbon Set" and "Eject" buttons together, and the LCD display will then read "Self Test". Please see User Guide for more details.

Cleaning

In order to maintain printer performance, it is important that it is cleaned regularly.

Refer to the printer User Guide for more information.

Maintenance

It is very important to maintain your Javelin card printer properly according to the instructions provided in the User Guide.

If you have any difficulty with your new Javelin card printer and have not been able to find a solution in the User Guide, please contact your dealer or visit our website:
